Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This

rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E surface airspace, and amends Class E airspace extending upward from 700 feet above the surface, to support IFR operations for Ocean Reef Club Airport, Key Largo, FL.

History

The FAA published a notice of proposed rulemaking in the *Federal Register* (86 FR 68173, December 1, 2021) for Docket No. FAA-2021-0985 to establish Class E Surface airspace, and amend Class E airspace extending upward from 700 feet above the surface, for Ocean Reef Club Airport, Key Largo, FL.

The Rule

The FAA is amending 14 CFR part 71 by establishing Class E surface airspace within a 4.0-mile radius of Ocean Reef Club Airport to accommodate RNAV SIAPs serving the airport. This action also amends Class E airspace extending upward from 700 feet above the surface by updating the airport's geographic coordinates to coincide with the FAA's database, and correcting the airspace descriptor by replacing AL with FL.

Class E airspace designations are published in Paragraphs 6002 and 6005, respectively, of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. FAA Order JO 7400.11, *Airspace Designations and Reporting Points*, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore:

- (1) is not a “significant regulatory action” under Executive Order 12866;
- (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is minimal.

Since this is a routine matter that only affects air traffic procedures an air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
